Save-the-Date! Capitol Hill Fly-in, Briefing and Partner Anniversary Celebration

Mark your calendars for a fantastic spring Hill event in Washington, D.C. on **March 25th** (during Cherry Blossom season)! American Bird Conservancy (ABC) will be hosting a lobby fly-in, legislative briefing and Bird Conservation Alliance meeting, followed by a reception to celebrate ABC's 25th anniversary and Partners in Flight 30th anniversary. For groups and individuals who wish to meet with their congressional delegates to lobby on behalf of priority, migratory bird conservation bills, please contact [Jennifer Cipolletti](#) to coordinate meetings with your legislators - availability will be March 24-26th. Conservation partners will join together to present a briefing on priority legislation prior to the reception. More details to come so stay tuned!

Join Us for a Bird-Smart Wind Energy Webinar!

Balancing Renewable Energy Development with Bird Protection: Please join us for a webinar and conversation with Joel Merriman, American Bird Conservancy's Bird-Smart Wind Energy Campaign Director. Joel will provide current information about balancing the need for renewable energy development with protecting our bird populations. This will include discussion about identifying areas for avoidance, advances in minimization technology, and the need for more effective mitigation requirements. He will also provide updates on how this discussion is playing out in Congress, and how we are addressing these issues in the year to come. **Register to participate in the webinar on January 28, 2020 at 2 pm to learn more!**
